## Member Spotlight:

**Kevin Arthur** lived in Honduras before moving to Georgia. He used to own a dive ship where he also doubled as a scuba instructor for tourists.

He moved to Peachtree City in 2015 and has been working for Eastbrook Community since then. He is very laid back and likes the atmosphere of Peachtree City, but still likes to visit his old home from time to time.

He works hard renovating and maintaining the buildings and landscaping at Eastbrook Community. The beautiful updates inside and out are thanks in no small part to him.
